HCL Mock Test - 2

SECTION 1: Verbal Reasoning

Q1 (1 Marks)

Each problem consists of three statements. Based on the first two statements, the third statement may be true, false, or uncertain.

1.Tanya is older than Eric.

Cliff is older than Tanya.

Eric is older than Cliff.

If the first two statements are true, the third statement is

A. true

B. false

C. uncertain

2. Blueberries cost more than strawberries.

Blueberries cost less than raspberries.

Raspberries cost more than strawberries and blueberries.

If the first two statements are true, the third statement is

A. true B. false C. uncertain

3. Mara runs faster than Gail.

Lily runs faster than Mara.

Gail runs faster than Lily.

If the first two statements are true, the third statement is

A. true B. false C. uncertain

4. Class A has a higher enrollment than Class B.

Class C has a lower enrollment than Class B.

Class A has a lower enrollment than Class C.

If the first two statements are true, the third statement is

A. True B. False C. Uncertain

5. Four defensive football players are chasing the opposing wide receiver, who has the ball. Calvin is directly behind the ball carrier. Jenkins and Burton are side by side behind Calvin. Zeller is behind Jenkins and Burton. Calvin tries for the tackle but misses and falls. Burton trips. Which defensive player tackles the receiver?

A. Burton B. Zeller

C. Jenkins D. Calvin

6. Statement: London is the most expensive city.

Conclusion: 1) Bangalore is less expensive than London.

2) Sydney is the cheapest city.

7. Statement: People living in Chennai speak Tamil. Maya speaks Tamil.

Conclusion: 1) Maya resides in Chennai.

2) Maya knows other languages as well.

8. Statement: Food in 'THE COOK' restaurant is very costly.

Conclusion: 1) The quality of their food is very good.

2) The restaurant has a good ambience.

9. Statement 1: All those who graduated from MTV College are very intelligent.

Statement 2: Only intelligent people work in LT Company.

A) Graduates from other colleges are not so intelligent.

B) Graduates from MTV College work in LT Company.

C) Neither (A) nor (B) follows.

D) Both (A) & (B) follow.

10. Statement: Ani earns more than Sam. Next month the salary of Sam will increase by Rs.5000.

A) After the increment in salary, Sam will earn more than Ani.

B) Even after an increment in Sam's salary, Ani will earn more than Sam.

C) After the increment, Sam and Ani will earn equal amount of salary.

D) None of these.

11. Statements: Karan Johar is a good director. Directors are intelligent.

Conclusions: (a) All intelligent are directors

(b) Karan Johar is intelligent

(c) Both (a) and (b)

(d) None of these

12. Statements: All hill stations have a sun-set point. X is a hill station.

Conclusions:

I. X has a sun-set point.

II. Places other than hill stations do not have sun-set points.

(a) if only I follows;

(b) if only II follows;

(c) if either I or II follows;

(d) if neither I nor II follows and

(e) if both I and II follow.

13. Statement: Book your flat before 15th June and avail interest free loan from the builders - An advertisement

Q1 (1 Marks)

Conclusions:

I. No flat will be booked afterwards.

II. After 15th June, no loan will be provided.

A. Only conclusion I follows

B. Only conclusion II follows

C. Either I or II follows

D. Neither I nor II follows

14. Statements: H > I > J > K; L > M < K

Conclusions: I. I > M II. L < H

15. Statement: Panel has decided to shortlist those candidates having minimum first division (60%) throughout their career. Meena has secured 65% in 10th and 59% in 12th. She graduated with 85% percentage.

Conclusions:

I. Meena will be shortlisted.

II. Meena will not be shortlisted.

A - Only conclusion I is valid.

B - Only conclusion II is valid.

C - Either conclusion I or II is valid.

D - Neither conclusion I nor II is valid.

E - Both the conclusions are valid.

SECTION 2: Quantitative Aptitude

A certain sum is invested for certain time. It amounts to Rs. 600 at 10% per annum. But when invested at 5% per annum, it amounts to Rs. 400. Find the time.

A. 40 years

B. 75 years

C. 50 years

D. 60 years

Q2

Seats for Mathematics, Physics and Biology in a school are in the ratio 5 :7 :8. There is a proposal to increase these seats by 40%, 50% and 75% respectively. What will be the ratio of increased seats?

A. 2 : 3 : 4

B. 6: 7: 8

C. 6 : 8 : 9

D. 7

Q1 : 6: 9 (1 Marks)
(1 Marks)

Q3 (1 Marks)

A person borrows Rs. 3000 for 2 years at 5% p.a. simple interest. He immediately lends it to another person at 6 % p.a. for 2 years. Find his gain (in Rs.) in the transaction per year.

A. 42

B. 35

C. 39.25

D. 37.5

Q4 (1 Marks)

Two spheres of their radius in the ratio 4 : 3. Find its volumes ratio?

A. 64: 26

B. 64: 25

C. 64: 27

D. 64: 23

Q5 (1 Marks)

If m : n = 4 : 9, then find (5m + 7n)/(9m + 10n).

A. 126/83

B. 83/126

C. 43/129

D. 129/43

Q6 (1 Marks)

If 36% of 45% of a number is 81, then find the number.

A. 400

B. 700

C. 800

D. 500

Q7 (1 Marks)

Gary Halpert sold his wallet at a profit of 12%. If he purchased the wallet at $ 450, then find the price at which he sold the wallet (in $).

A. 475

B. 675

C. 504

D. 625

Q8 (1 Marks)

The average age of seven friends in 2015 was 35. Find their average age in 2018.

A. 39

B. 28

C. 27

D. 38

Q9 (1 Marks)

What percentage of 31 is 18.6?

A. 5

B. 6

C. 60

D. 22.5

Q10 (1 Marks)

Find the product of the roots of the equation $(x + 1)(x - 2) + (x - 2) = 0$

A. - 4

B. 0

C. 4

D. - 8

Q11 (1 Marks)

Train 'A' leaves a source station for destination station at 11 a.m., running at the speed of 60 kmph. Train B leaves the same source station to the same destination by the same route at 2 p.m. on the same day, running at the speed of 72 kmph. At what time will the two trains meet each other?

A. 4 am

B. 4 pm

C. 5 am

D. 5 pm

Q12 (1 Marks)

A sum of Rs 468.75 was lent out at simple interest and at the end of 1 year and 8 months, the total amount of Rs 500 is received. find the rate of interest?

A. 2%

B. 4%

C. 1%

D. 3%

Q13 (1 Marks)

Dhruv and Naksh drive at the speeds of 36 Kmph and 54 kmph respectively. If Naksh takes 3 hours lesser than what dhruv takes for the same distance. Then distance is :

A. 324 km

B. 524 km

C. 320 km

D. 420 km

Q14 (1 Marks)

P can do a piece of work in 5 days of 8 hours each and Q can do in 4 days of 6 hours each. How long will they take do it working 5 hours a day?

A. 2 days

B. 3 days

C. 4 days

D. 5 days

Q15 (1 Marks)

If A and B together can complete a piece of work in 15 days and B alone in 20 days, in how many days can A alone complete the work?

A. 30

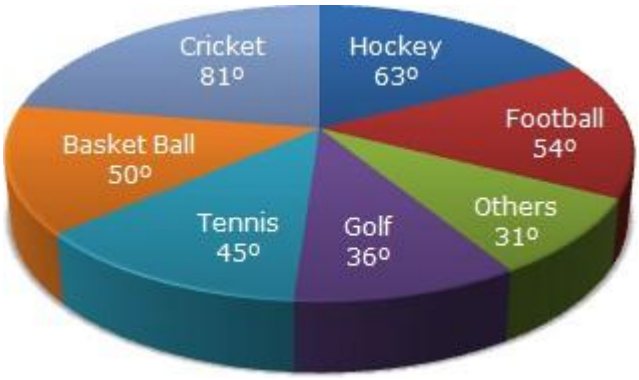

B. 45

C. 60

D. 40

SECTION 3: Analytical Reasoning

Q1 (1 Marks)

What percent of total spending is spent on Tennis?

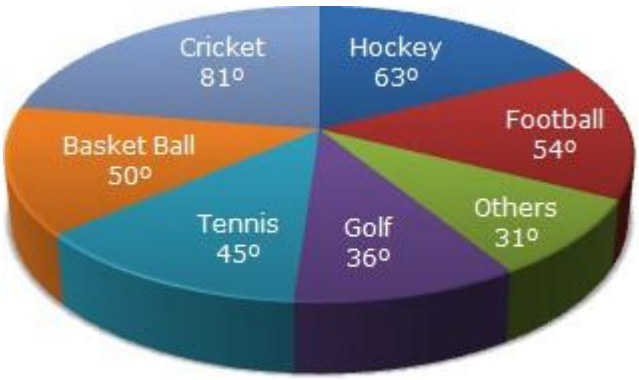

A. 12.5%

B. 22.5%

C. 25%

D. 45%

Q2 (1 Marks)

How much percent more is spent on Hockey than that on Golf?

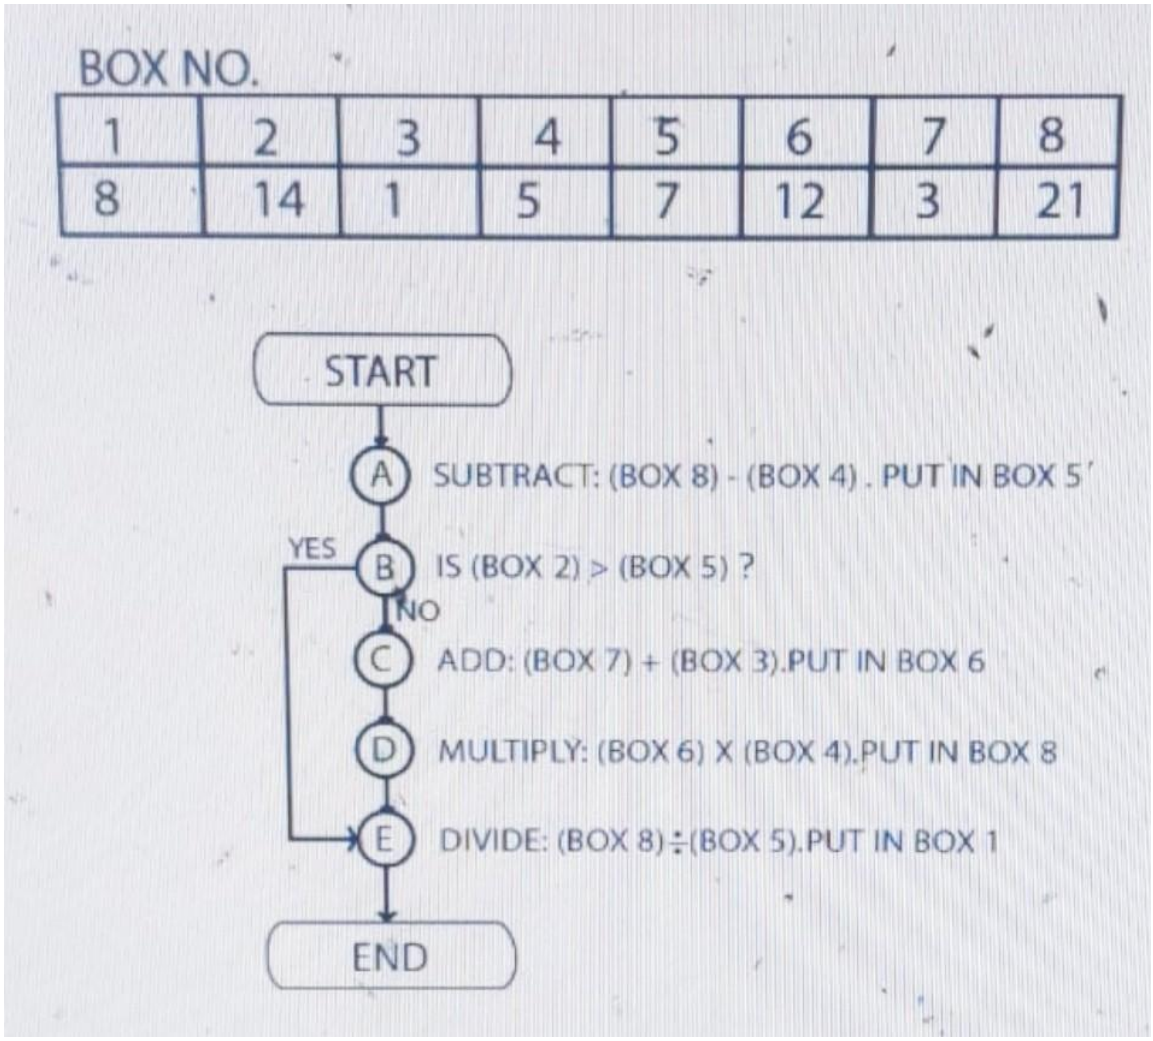

A. 27%

B. 35%

C. 37.5%

D. 75%

Q3 (1 Marks)

Which box has higher value at the end of flowchart?

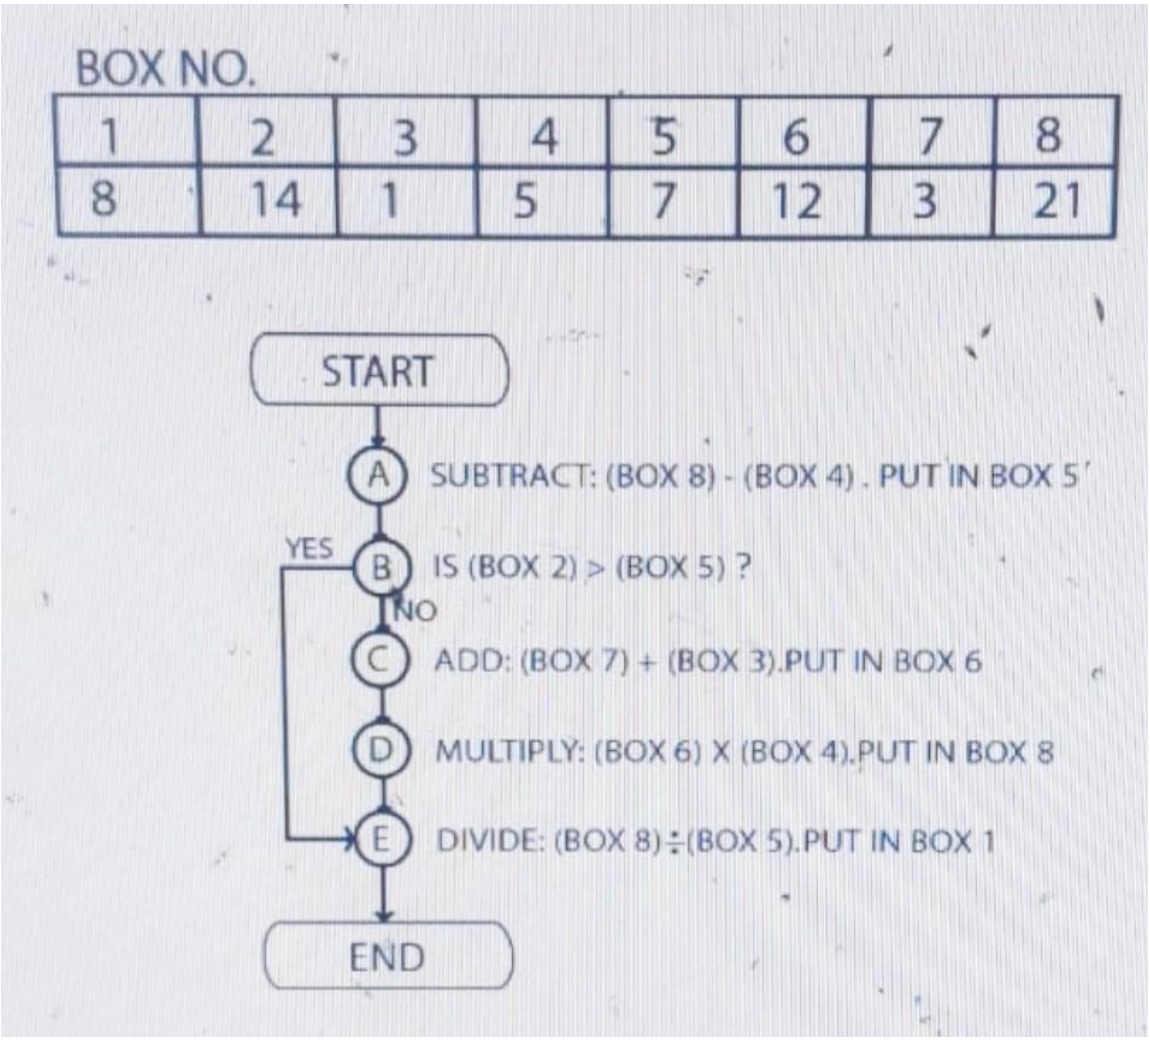

A. 6

B. 8

C. 1

D. 5

Q4 (1 Marks)

Which box has decimal value at the end of flowchart?

A. 1

B. 6

C. 8

D. 5

Q5 (1 Marks)

What will be the total weight of 10 poles, each of the same weight ?

Statements: I. One-fourth of the weight of each pole is 5 kg.

II. The total weight of three poles is 20 kilograms more than the total weight of two poles.

A. I alone is sufficient while II alone is not sufficient

B. II alone is sufficient while I alone is not sufficient

C. Either I or II is sufficient

D. Neither I nor II is sufficient

E. Both I and II are sufficient

Q6 (1 Marks)

Question: What is the distance from A to C?

Statements:

I. The distance from A to B is 8 km.

II. The distance from point B to C is 4 km

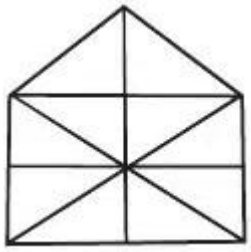

A. Statements I and II together are not suf cient to answer the question asked and additional data to the problem is needed.

B. Each statement alone is suf cient to answer the question

C. Only one of the statements, alone, is suf cient to answer the question but other statement is not

D. Both statements I and II together are suf cient to answer the question asked but neither statement alone is suf cient.

Q7 (1 Marks)

Find the number of maximum possible triangles in the below figure.

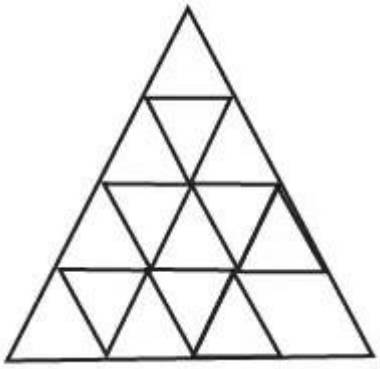

A. 10

B. 19

C. 23

D. 21

Q8 (1 Marks)

Determine how many straight lines are necessary to create the given figure.

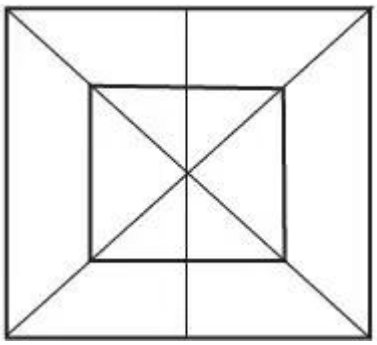

A. 9

B. 11

C. 15

D. 16

Q9 (1 Marks)

Count the number of triangles in the given figure.

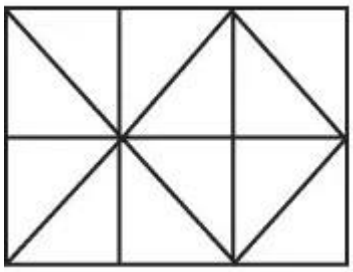

A. 28

B. 18

C. 16

D. 24

Q10 (1 Marks)

Count the sum of triangles and squares.

A. 23

B. 9

C. 32

D. 19

Q11 (1 Marks)

Six roads lead to a country. They may be indicated by letters X, Y, Z and digits 1, 2, 3. When there is a storm, Y is blocked. When there are floods, X, 1 and 2 will be affected. When road 1 is blocked, Z also is blocked. At a time when there are floods and a storm also blows, which road(s) can be used?

A. Only Y

B. Only Z

C. Only 3

D. Z and 2

Q12 (1 Marks)

Shekhar is taller than Kunal. Atul is taller than Pawan but not as tall as Kunal. Prashant is taller than Shekhar. Who among them is the shortest?

A. A) Pawan

B. B) Kunal

C. C) Shekhar

D. D) Atul

Q13 (1 Marks)

If south-east becomes north, north-east becomes west then what will west become?

A. A) North-West

B. B) South-East

C. C) North-East

D. D) South-West

Q14 (1 Marks)

From the given choices select the odd man out

A. Option 1 : ADG

B. Option 2 : BEH

C. Option 3 : SUT

D. Option 4 : KNQ

E. Option 5 : CFI

Q15 (1 Marks)

Siddharth and Murali go for jogging from the same point. Siddharth goes towards the east covering 4 km. Murali proceeds towards the west for 3 km. Siddharth tuns left and covers 4 km and Murali turns to the right to cover 4 km. Now what will be the distance between Siddharth and Murali?

A. Option 1 : 14 km

B. Option 2 : 6 km

C. Option 3 : 8 km

D. Option 4 : 7 km

SECTION 4: Critical Reasoning

Q1 (1 Marks)

In the following question(s), symbols @,$,#,*and % are used with different meanings as follows:

'A @ B' means 'A is not smaller than B'.

'A # B' means 'A is neither smaller than nor equal to B'.

'A % B' means 'A is neither smaller than nor greater than B'.

'A $ B' means 'A is not greater than B'.

'A * B' means 'A is neither greater than nor equal to B'.

Now assuming in the following question the given statements to be true. nd which of the given conclusions given below them is/are definitely true and give your answer accordingly.

Statements:

· F # R · H * R · L $ H

Conclusions:

I. F # L II . R @ L

A. Only I follows

B. Only II follows

C. Both I and II follows

D. Neither I nor II follows

Q2 (1 Marks)

Statements: All bags are cakes.

All lamps are cakes.

Conclusions: I. Some lamps are bags.

II. No lamp is a bag.

A. A) only conclusion I follows

B. B) only conclusion II follows

C. C) either I or II follows

D. D) neither I nor II follows

Q3 (1 Marks)

Statements: Some rivers are lakes.

All lakes are ponds.

Conclusions: I. All ponds are lakes.

II. Some rivers are ponds.

A. A) only conclusion I follows

B. B) only conclusion II follows

C. C) either I or II follows

D. D) neither I nor II follows

Q4 (1 Marks)

Statements: Some teachers are adults.

Some adults are poets.

Conclusions: I. Some teachers are poets.

II. Some poets are teachers.

A. A) only conclusion I follows

B. B) only conclusion II follows

C. C) either I or II follows

D. D) neither I nor II follows

Q5 (1 Marks)

In the question symbols *, @, %, $ and # are used with the following meaning:

'P $ Q' means 'P is not greater than Q'

'P * Q' means 'P is neither smaller than nor greater than Q'

'P # Q' means "P is neither greater than nor equal to Q'

'P % Q' means 'P is not smaller than Q'.

'P @ Q' means 'P is neither smaller than nor equal to Q'.

Now assuming the statements to be true, find which of the two conclusions I and II is/are definitely true.

Statements D %H, K * H, H $ R

Conclusions I. K $ R II. D % K

A. Option 1 : Only conclusion I is true

B. Option 2 : Only conclusion II is true

C. Option 3 : Either conclusion I or II is true

D. Option 4 : Neither conclusion I nor II is true

E. Option 5 : Both conclusions I and II are true

Q6 (1 Marks)

Statements: The president gave bravery award to nine children.

Assumptions: I. The President gives award only to nine children every year.

II. The evening before the awards, each brave child dines with the President

A. Option 1 : Only assumption I is implicit

B. Option 2 : Only assumption II is implicit

C. Option 3 : Both assumption I and II are implicitt

D. Option 4 : Neither assumption I nor II is implici

Q7 (1 Marks)

Statements: "We enjoyed ourselves very much in Paris during holidays" Richa told Anita.

Assumptions: I. Richa was in Paris during the holidays.

II. She was accompanied by somene during her visit.

A. Option 1 : Only assumption I is implicit

B. Option 2 : Only assumption II is implicit

C. Option 3 : Both assumption I and II are implicit

D. Option 4 : Neither assumption I nor II is implicit

Q8 (1 Marks)

Statement: The eligibility for appearing for Common Entrance Test (CET) for engineering in state 'M' is now raised to 60% from earlier 50% at HSC examination. Courses of action:

I. Many candidates from state 'M' may not appear for CET this year and may appear from CET examination of other states.

II. At pre-examination screening candidate obtaining less than 60% at HSC will have to be eliminated.

A. Option 1 : Only course of action I follows.

B. Option 2 : Only course of action II follows.

C. Option 3 : Either course of action I or II follows.

D. Option 4 : Neither course of action I nor II follows.

E. Option 5 : Both courses of action follows.

Q9 (1 Marks)

Should the parents who do not send their children to schools be punished? Arguments: I. Yes, it is the only way to eradicate illiteracy.

II. No, why should parents be punished ?

A. Option 1 : Only agrument I is strong.

B. Option 2 : Only argument II is strong.

C. Option 3 : Either I or II is strong.

D. Option 4 : Neither I nor II is strong.

E. Option 5 : Both I and II are strong.

Q10 (1 Marks)

Statements P: Some bags are hot. Q: All hots are cakes.

Conclusions I. All cakes are bags. II. Some bags are cakes.

A. Option 1 : Only conclusion I follows.

B. Option 2 : Only conclusion II follows.

C. Option 3 : Neither I nor II follows

D. Option 4 : Both I and II follow.

Q11 (1 Marks)

In the question certain symbols are used with the following meaning:

'P ^ Q' means 'P is greater than Q'.

"P * Q means 'P is equal to Q' '

'P # Q' means 'P is either smaller than or equal to Q'

'P $ Q' means 'P is not smaller than Q'

'P @ Q' means 'P is either greater than or equal to Q'.

Now assume the given statements to be true and find which of the two conclusions I and II is/are definitely true.

Statements: A * B, C # B, A ^ F, B @ C

Conclusions: I. C ^ F II. F ^ B

A. Option 1 : Only conclusion I is true

B. Option 2 : Only conclusion II is true

C. Option 3 : Either conclusion I or II is true

D. Option 4 : Neither conclusion I nor II is true

E. Option 5 : Both conclusions I and II are true

Q12 (1 Marks)

Statement : In a class of 48 students, 75% are girls and the rest are boys. Only 50% of the students know swimming. Only 25% of the remaining take part in extra curricular activities.

Conclusions :

A. (a) Girls are poor swimmers.

B. (b) Boys often hesitate in taking part in extracurricular activities.

C. (c) All the students in the class are good at studies.

D. (d) The school prefect belongs to this class.

E. (e) There are students who are neither swimmers nor they take part in extracurricular activities.

Q13 (1 Marks)

The question is followed by two arguments numbered I and II. You have to decide which of the arguments is a strong argument and which is a weak argument.

Should the retirement age of all government employees in India be made 55 years? Arguments: I. Yes, this will help government to offer employment to youth at lower cost and with higher productivity.

II. No, the Government will be deprived of the expertise of experienced employees and this will have adverse effect on productivity.

A. Option 1 : Only argument I is strong.

B. Option 2 : Only argument II is strong.

C. Option 3 : Either I or II is strong.

D. Option 4 : Neither I nor II is strong.

E. Option 5 : Both I and II are strong.

Q14 (1 Marks)

Should the admission to professional courses in India be given only on merit without any concession to any particular group of students?

Arguments: I. Yes, this will improve the quality of the professionals as they will be able to complete the courses successfully.

II. No, this will keep large number of socially and economically backward students out of the reach of the professional courses.

A. Option 1 : Only argument I is strong.

B. Option 2 : Only argument II is strong.

C. Option 3 : Either I or II is strong.

D. Option 4 : Neither I nor II is strong.

E. Option 5 : Both I and II are strong.

Q15 (1 Marks)

Statement: 'Please do not wait for me, I may be late, start taking lunch as soon as the guests arrive.' - a message from a Director of a Company to his Office managers. Assumptions: I. Keeping guests waiting is not desirable.

II. Lunch may not be ready in time.

A. Option 1 : Only Assumption I is implicit.

B. Option 2 : Only Assumption II is implicit.

C. Option 3 : Either Assumption I or II is implicit.

D. Option 4 : Neither Assumption I nor II is implicit.

E. Option 5 : Both Assumptions I and II are implicit.

SECTION 5: Logical Reasoning

Q1 (1 Marks)

Pointing to a man ,Shailesh said "his father is the only son of my father". How is Shailesh related to man?

A. Father

B. Son

C. Brother

D. Uncle

Q2 (1 Marks)

ADWZ:FIBE :: KNPM:

A. PSUT

B. PSUR

C. PSER

D. PVUR

Q3 (1 Marks)

If wind is called stone, stone is called water, water is called breeze, breeze is called rain, rain is called hot and hot is called cold in a certain language, what do we wash our hands with, in that language?

A. Water

B. Cold

C. Stone

D. Breeze

Q4 (1 Marks)

If A is the brother of B; B is the sister of C; and C is the father of D, how D is related to A?

A. Brother

B. Sister

C. Nephew

D. Can't be determined

Q5 (1 Marks)

In a certain code language ‘SUPERMAN’ is coded as ‘USEPMRNA ’. Then in that code ‘MANAGING ’ is codes as:

A. AMNAIGGN

B. AMANIGGN

C. AMANIGNG

D. AMAINGGN

Q6 (1 Marks)

What is the next number in the series below :

14, 49, 916, 1625, ...

A. 2027

B. 2438

C. 2578

D. 2536

Q7 (1 Marks)

Find the missing term in the series given below

YWX, ABC, UTS, DEF, QPO,?

A. FGH

B. GHI

C. HIJ

D. MLK

Q8 (1 Marks)

What is the next term in the series?

49, 52, 29, 32, 9, ?

A. 12

B. 39

C. 41

D. 17

Q9 (1 Marks)

Sunila stands with her face pointing to the south-east direction. She walks 15 meters and then turns northwards and walks another 12 meters. How far is she from the starting point?

A. A) 3 meters

B. B) 27 meters

C. C) 9 meters

D. D) None of the options mentioned

Q10 (1 Marks)

I am less than 6 feet tall but more than 2 feet tall. My height in inches is a multiple of 7 and is also 2 inches more than a multiple of 6. What is my height in inches?

A. 43

B. 56

C. 21

D. 42

E. 65

Q11 (1 Marks)

A and B are brothers

C is sister of A

D is brother of E

E is daughter of B

Who is the uncle of D?

A. D

B. A

C. E

D. B

Q12 (1 Marks)

ace:egi::ilo:_____

A. A) oqs

B. B) oru

C. C) oqu

D. D) oqr

Q13 (1 Marks)

What is the next term in the series?

7, 31, 71, 127, 199, 287, ?

A. 373

B. 391

C. 399

D. 417

Q14 (1 Marks)

Statements: Some marbles are pens. Some pens are dogs. Some dogs are doors. Conclusions: I. Some doors are pens.

II. Some dogs are marbles.

III. Some marbles are doors.

A. Only I follows

B. Only II follows

C. Only III follows

D. None follows

E. All follows

15. Vincent has a paper route. Each morning, he delivers 37 newspapers to customers in his neighborhood. It takes Vincent 50 minutes to deliver all the papers. If Vincent is sick or has other plans, his friend Thomas, who lives on the same street, will sometimes deliver the papers for him.

(A) Vincent and Thomas live in the same neighborhood.

(B) It takes Thomas more than 50 minutes to deliver the papers.

(C) It is dark outside when Vincent begins his deliveries.

(D) Thomas would like to have his own paper route.
